REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

The year of 1967 will go down in history as a wet year although the early spring was dry and windy. During this time, we had many fires, unnecessary fires caused by carelessness and disregard for the common-sense fire laws and regulations. This lack of responsibility on the part of a few people hurts everyone. Let's work together to prevent the start of those unnecessary fires by:

1. No burning between 9:00 A.M. - 5:00 P.M. and then only with a permit from the Forest Fire Warden.
2. Take all debris and waste to the town dump.
3. Keep a clean, safe town dump.
4. Urge close supervision of children in regard to use of matches.
5. Exercise care with smoking material - use the ashtray.

Number of Fires and Acres Burned

	Fires	Acres
State	408	520
District	57	251
Town	1	1½

District Chief CORNELIUS WOOD Warden GEORGE L. PORTER

The one fire listed here illustrates an important fact. It is better that it happened to the Warden instead of somebody else; because it was a collectable bill. It was set by a spark from a tractor exhaust. Anyone touching off a fire of this kind is liable not only for the suppression costs, but the damage as well.

The Warden thanks the town's people for being careful during the 1967 fire season.

REPORT OF THE LANGDON FIRE DEPARTMENT

There was substantial gain in the Fire Fighting Equipment of our Langdon Department. Following the advice of the Committee set up in 1965 to study the affairs of the Organization, the pumper released by the Alstead Department, when their new truck arrived, became the Langdon M2. This truck is equipped with 500 gpm pump, booster tank of 150 gal., and 100 feet of booster hose. Also radio, red light, and siren. It carries a substantial amount of hose. The acquisition of this apparatus should tide us over until such time as the purchase of a new truck is within our means.

The Capital Reserve Fund raised for Fire Equipment was used to finance this project. \$1,500.00 was withdrawn from the fund of which \$400.00 went for the truck, \$350.00 for the radio and \$488.54 for hose, 4 sets of coats, boots, helmets, gloves, and nozzle, leaving \$261.46 for the purchase of other needed equipment.

We had no serious fires. However, we were able to render some effective assistance in the disastrous Frenchie's store fire in Alstead on April 1st. The excellent maintenance carried out by the men who attend drills, assured that the equipment was in proper shape at this critical time. The Walpole Dump fire proved this again. another vehicle.

By practicing and studying the equipment at various water sources the members of the Fire Department have been influenced to think that, if and when a new truck is purchased, it should not be one of the big modern fully equipped and heavily loaded type. The maneuverability of the little Jeep pumper will utilize 10 water holes where a larger truck can only use one. As a result, we recommend that serious thought be given to the study of short wheel base front end equipment. If this does not carry enough hose, tools, ladders, and auxiliary equipment, these things should be assigned to

Prior to the Springfield High School fire, a drill was held at the Fall Mountain Regional High School. Eight Departments attended and actively participated. The number of pumpers required to draw water from the pond near Elroy Rock's made it seem imperative that to supply a heavy volume of water, the Beaver Pond on the Sheldon meadow is the most practical source. It took three pumpers to relay the water from the Rock Pond. The Rock Pond is 2/3 of a mile or 3,580 feet distant. The Beaver Pond on the Sheldon meadow is the same water shed, and of course, never failing. It is within 400 or 600 feet of the school, depending on how it is dredged. A road could be built to this pond with relatively small expense.
